

KRISH KUMAR

MERN Stack Developer | Backend Developer | BCA Student

+91 6283240896 krish1245j@gmail.com github.com/kumar-krish Majitha, Punjab, India

KK

SUMMARY

Detail-oriented BCA student and aspiring Backend Engineer experienced in building scalable REST APIs and full-stack MERN applications with JWT authentication, RBAC, and the Service Layer pattern. Skilled at translating requirements into clean, maintainable code backed by strong Data Structures & Algorithms fundamentals.

EDUCATION

Bachelor of Computer Applications (BCA)

DAV College, Amritsar | Expected Graduation: 2027

PROJECTS

AI Resume Analyzer

React.js, Node.js, Express.js, MongoDB, LLaMA, Qwen, Google Gemini AI API, JWT

- Built an AI resume evaluation platform using React.js and Node.js, integrating LLaMA, Qwen, and Google Gemini AI models to score resumes against job descriptions and surface skill gaps.
- Secured the app with JWT authentication and an optimized MongoDB schema; deployed the client and server to Vercel and Render.

Full Stack E-Commerce Platform

React.js, Node.js, Express.js, MongoDB, JWT, Multer

- Built a full-stack e-commerce application with a multi-page, secure React.js frontend and an MVC/Service Layer backend for clean separation of logic and data.
- Enforced JWT authentication and Role-Based Access Control across admin and user routes, with Multer-powered file uploads for product data.

Advanced Banking Transaction System

Node.js, Express.js, MongoDB

- Engineered secure REST APIs for account processing, transaction validation, and automated ledger balancing.
- Implemented centralized async error handling and query optimizations for reliable fund transfers.

LANGUAGES

English (Native) • Hindi (Native) • Punjabi

ADDITIONAL INFORMATION

Core Interests: Backend Architecture, Web Security, Database Optimization, Artificial Intelligence, and Containerization & Cloud Computing.

SKILLS

Backend Development

Node.js Express.js REST APIs

Custom Middleware

RBAC JWT Authentication

Databases & Storage

MongoDB Mongoose SQL

Cloud Storage & File Uploads

DevOps & Cloud

Docker

AWS: EC2, S3, IAM

Frontend Development

React.js Tailwind CSS

HTML5 CSS3

Tools & Platforms

Git GitHub Postman

Vercel Render

Core Concepts

MVC Architecture Service Layer

API Security DSA OOP

ACHIEVEMENTS

Solved 100+ DSA problems across online judges, sharpening algorithmic thinking.

Placed 3rd in a college-wide coding contest against senior BCA/B.Tech students.

Built and deployed multiple production MERN apps live on Vercel and Render.
